Peter and Hannah, attached are the Region 8 comments. You and your team did a terrific job on the rewrite! It's well organized and clearly and concisely conveys what EPA has done already, what input EPA received on PFAS actions, and what EPA plans to do (and why) in response to that input. The attached contains just a couple of editorial comments. Please see my note on Appendix A – your guidance on the type/level of information to include could ensure that we are consistent across regions and the information adds value.

Thanks again for all your work on this!  
D

Peter and Hannah – Our Regional Administrator has been on travel this week and would like to review our comments and determine if he has additional thoughts he'd like to share. He expects to have anything additional to us tomorrow and I will send on as soon as I have his information.

The team had minimal comments; one item we are looking at is anything further to add to Appendix A on regional actions.

Thanks!

**Subject:** Re: UPDATED: Draft PFAS Management Plan

Following up on yesterday's email, it will be particularly helpful for each program or region to flag any actions within the draft PFAS management plan that need further discussion or decision making.

Note also that the Administrator has provided significant guidance on flow and organization of the document and we will be working that into the next draft.

Thanks again to all for your assistance!

P. Grevatt

Thanks to each of the programs and Regions for your helpful comments on the preliminary draft PFAS management plan. Please see attached to this message an updated draft of the PFAS management plan, which has been revised based on the comments received. Note that in several sections of the document, we received conflicting comments, and in the revised draft we have sought to best accommodate all of the comments we have received. We welcome input you and your program staff can provide to further strengthen this draft. You will also note that we also need to fill in some of the dates for the actions identified in the executive summary, and we will appreciate the programs adding this information where this field is left blank for the actions you are responsible for.

The work described in this preliminary draft reflects a tremendous amount of outstanding work that is taking place across the Agency, and in partnership with the other federal agencies, the states and tribes, and local communities. While the short descriptions of activities cannot do justice to the scope and importance of these efforts, the goal is to ensure that the draft management plan conveys the strategic choices the Agency is making to balance the need for near-term action with the need to be deliberate in carefully considering the appropriate next steps to protect human health and the environment. Thanks again to all for your excellent work and collaboration on this effort!

**Please provide your office/region's consolidated comments to Hannah Holsinger with a cc to me no later than COB on Wednesday, October 31.** For your reference, I have also attached a schedule that outlines next steps for development of the PFAS management plan.

### **PFAS National Management Plan: Draft Timeline**

<b>Date</b>	<b>Activity</b>
Week of October 1 <sup>st</sup>	Finalize management plan outline Draft preliminary management Plan Early engagement with program offices
Week of October 8 <sup>th</sup>	Draft management plan Begin 1-Week EPA program and regional input/review
Week of October 15 <sup>th</sup>	Draft communications materials Brief AAW with programs and regions Early engagement with OMB/White house
Week of October 22 <sup>nd</sup>	2-day Revise PFAS management plan 3-day Program and regional management review
Week of October 29 <sup>th</sup>	AO 1-week review
Week of November 5 <sup>th</sup>	Revise draft management plan based on AO feedback Brief OMB staff and provide management plan and communications mat for review
Week of November 12 <sup>th</sup>	OMB review
Week of November 19 <sup>th</sup>	OMB engagement
Week of November 26 <sup>th</sup>	Finalize management plan Finalize communications materials Release management plan
